

Chrystian Klingenberg

Senior Product Designer

SaaS • Product UX • Data-Driven Design

Product Designer with 9+ years of experience designing SaaS and enterprise products.

Experienced in the full product design process, including user research, usability testing, prototyping, and experimentation. I collaborate closely with product managers and engineers to translate business goals into user-centered solutions and improve key product metrics.

My role has gradually expanded toward product strategy and ownership, including backlog management, MVP definition, and supporting product development planning.

Skills

Product & UX Desing

User experience design, interaction design, information architecture, complex product flows, design systems, prototyping, usability evaluation.

Product Discovery & Strategy

User research, product discovery, workshop facilitation, experimentation, MVP definition, balancing user needs with business goals.

Data-informed Design

Product analytics, funnel analysis, behavioral insights, A/B testing, usability insights.

AI-assisted Product Design

Using generative AI to accelerate ideation, prototyping, and development workflows.

Collaboration & Delivery

Cross-functional collaboration, stakeholder communication, product planning, design handoff, working closely with engineers and product managers.

Experience

Apr 2025 - Oct 2025

Moderator1

Senior Product Designer

Designed end-to-end UX for an AI-powered voice interview platform combining qualitative insights with quantitative data.

- Designed core product flows including survey setup, response navigation, dashboards, and empty states.
- Built onboarding and verification flows (LinkedIn authentication and manual fallback) improving participant access.
- Designed admin tools for managing large volumes of interview responses and research data.
- Created landing pages and marketing assets supporting early product validation and acquisition.

Oct 2024 - Jun 2025

Cognism

Senior Product Designer

Improved core workflows in Cognism's B2B sales intelligence platform used by enterprise sales teams.

- Redesigned key CRM workflows including search, contact lists, and Salesforce integration.
- Improved data discovery and lead management through better filtering and navigation.
- Designed collaboration features enabling teams to create, share, and export lead lists.
- Worked closely with product managers and engineers to identify friction points and deliver launch-ready improvements.

Experience

○ **May 2022 - Oct 2024**

Phenom

Senior Product Designer

Designed solutions supporting enterprise recruitment platforms used by large global clients.

- Designed an automation engine allowing companies to configure and manage recruitment workflows.
- Improved UX across key platform areas including CRM tools and Hiring Manager workflows.
- Optimized hiring flows for enterprise clients such as Walmart and Circle K.
- Delivered scalable UX/UI solutions balancing usability, platform complexity, and business requirements.

○ **Aug 2023 - Oct 2023**

Next47

Design Investment Advisor

Evaluated the design and product potential of early-stage startups within the venture portfolio.

- Assessed usability, product-market fit, and technical feasibility of emerging design tools.
- Prepared evaluation reports supporting investment and product development decisions.

○ **Feb 2023 - May 2023**

Sourceful Information Technology Services

UX Mentor

Mentored UX designers in usability evaluation, prototyping, and design communication.

- Supported designers in preparing developer hand-offs and presenting design decisions.
- Introduced advanced prototyping techniques using Axure.
- Facilitated UX workshops and design reviews.

○ **Oct 2020 - Jun 2022**

BOLD

UX Designer

Owned the end-to-end UX process for SaaS products improving user experience and product metrics.

- Designed solutions from early concepts and wireframes to high-fidelity UI.
- Supported product experimentation through A/B testing and design validation.
- Conducted user research using tools such as Hotjar and TryMyUI.
- Translated research insights into product improvements across the platform.

○ **Mar 2021 - Feb 2022**

Fincredible

Product Designer

Led the end-to-end UX process from concept validation to final UI delivery.

- Managed and prioritized the product backlog together with the development team.
- Designed and maintained a scalable design system supporting product consistency.

○ **Mar 2020 - Sep 2020**

Roche via Astek Polska

UX Designer & Product Owner

Combined UX design with product ownership responsibilities.

- Managed stakeholder communication and gathered business requirements.
- Maintained and prioritized the product backlog with detailed acceptance criteria.
- Defined product roadmaps and aligned UX decisions with business goals.

Education

University of Wrocław,

Poland

Bachelor's studies in Geography

Master's studies in Geography
